No surgeons performed 10 or more procedures statewide	n/a	n/a
<p><b>Notes:</b> Volume data are from DHCFP Hospital Discharge Data for FY2005.  Cost data are from DHCFP 403 Hospital Cost Report for FY2004. Costs are reported at the hospital organization level.  Surgeons are not listed if they performed fewer than 10 procedures statewide in 2005. Surgeries performed in US government hospitals (e.g., Veteran's Affairs (VA) hospitals) are not included in this report.</p> <p><b>ICD-9-CM Definition:</b> Discharges for the volume calculation were determined based on the ICD-9-CM procedure codes of 38.34 – resection of aorta with anastomosis, 38.44 – resection of abdominal aorta with replacement, 38.64 – other excision of aorta, 39.25 – aorta-iliac-femoral bypass, or 39.71 – endovascular implantation of graft in abdominal aorta. <b>Hospital volume</b> was determined by the presence of the procedure codes in <b>any</b> of the procedure fields with each patient being counted only once. <b>Physician volume</b> was determined by the presence of the procedure codes in the <b>primary</b> procedure field only.</p> <p><b>Hospital Cost Category (surgeon fee not reflected):</b>  \$ = Hospitals in the lowest 25% of costs. Cost = less than \$18,195.  \$\$ = Hospitals in the middle 50% of costs. Cost = \$18,195-\$29,149.  \$\$\$ = Hospitals in the highest 25% of costs. Cost = greater than \$29,149.</p>
